

This light-weight and compliant foot has been designed for users with low to moderate levels of impact.

This foot has a low profile, similar to the Trés and Tribute feet. It also has built-in springs for a smooth roll over and added security for users, especially on uneven surfaces. Its action is softer than the Tribute and Trés, making it ideal for those patients who need a foot that protects them from excessive socket interface forces whilst also improving stability.

This durable yet lightweight foot is packaged within a low maintenance design, complete with a removable foot shell.

CES CPI F09: Use this code to read the Celsus clinical evaluation summary on the Steeper website.

Features and Benefits

- Integrated spring system and Intelliweave® technology provides excellent multiaxial movement with a natural centre of rotation; providing ground compliance and increased stability
- Low profile
- Removable foot shell with sandal toe
- Custom gait matching with pre-installed heel wedge and fulcrum pad to allow precise levels of resistance for maximum comfort

Multi-axial response

Cosmetics

Removable foot shell with sandal toe

Ordering Information

Trial Period - This foot has a 30 day trial period.

Impact Level Descriptions

Low: Daily activities include mostly level ground walking, moving around the home and the community.
