

Engineered for active amputees who require a lower build height foot, the Highlander foot provides a smooth gait and excellent energy return. The split-keel provides stability on uneven terrain by enhancing inversion and eversion. Many transfemoral amputees prefer this foot because of its ideal balance of stability and dynamic response.

Water-resistant*

*Water-resistant: Safe for contact with water and occasional submersion. Rinse immediately with fresh water and dry following exposure to water, particularly salt or chlorinated.

Features and Benefits

- Low build height with integral male pyramid
- Split-keel design for excellent inversion/eversion
- Weight limit 166kg
- Available in 9 stiffness categories

Cosmetics

Mid profile foot shell

Sandal toe: sizes 22-28cm only

Ordering Information

Trial Period - This foot has a 30 day trial period.

Impact Level Descriptions

Low: Daily activities include mostly level ground walking, moving around in the home and the community.

Moderate: Daily activities include up to unlimited walking, climbing stairs and occasional moderate lifting (this does not include running).

High: Daily activities include fast walking, jogging, running, lifting heavy objects and/or recreational sports.
