

The Streifeneder silicone liners offer solutions to meet a wide range of user requirements. Each liner uses robust, first-class materials, alongside Streifeneder's new knit technology, to provide a great balance of comfort and function.

The ComfortSil prosthetic liner is a 3mm/6mm silicone liner made with soft silicone.

Features and Benefits

- Ideal silicone liner for those with pressure sensitive residual limbs
- Suitable for low to moderate activity levels
- Designed for those looking for additional comfort and compliance
- Provides additional protection for residual limbs with reduced soft tissue or partially prominent bony anatomy (soft only)
- Lined with antiseptic additives called 'SteriOne', to help keep liners free of bacteria and micro-organisms
- Integrated 10cm knitted matrix reduces distal elongation under tensile load
- Easy to don and doff due to resilient polyamide/elastane cover
- Integrated coloured vertical stripe for easier donning orientation
- Distal silicone-rotation control
- Available with or without distal connections
