

The Streifeneder silicone liners offer solutions to meet a wide range of user requirements. Each liner uses robust, first-class materials, alongside Streifeneder's new knit technology, to provide a great balance of comfort and function.

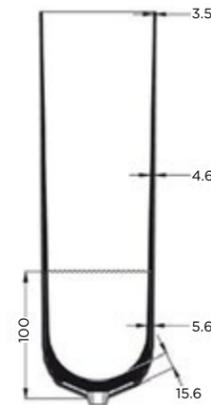

The PrimoSil.basic is a 3mm silicone liner made with especially soft silicone.

Features and Benefits

- Ideal silicone liner for those with pressure sensitive residual limbs
- Suitable for low to moderate activity levels
- Designed for those looking for additional comfort and compliance
- No antibacterial finish for users with more sensitive skin
- Integrated 10cm knitted matrix reduces distal elongation under tensile load
- Easy to don and doff due resilient polyamide/elastane cover
- Integrated coloured vertical stripe for easier donning orientation
- Distal silicone-rotation control
- Available with or without distal connections
